Student Response Sheet

# Placement Passage Levels II-12 Mud Wrestling There's always mud wrestling at the Mt Gay Park Fair. They map out a mud pit. The floor is the size of a wrestling ring. They loy a sheet of plastic on the floor. They build the wills of shandbags. The wolls are knee-high. After the walls are built, they cover them with plastic, too. They put really wet mud into the pit. Men and women can wrestle in mud wrestling. A man can wrestle a women or a man. Each wrestler pets a number. Each wrestler has to wear proper clothes. No shoes! A referce starts the mud-wrestling match. Wrestlers have to know the rules. You can lie on your opponent, but don't knee them. You can wrong your orms around your opponent, but it's wrong to choke them. If a wrestler wants to quit, the match is over. Would usu like to tru mud wrestlino?

#### Oral Reading Passages

		e sounds ou with		the	Ш	Test	Placement
ing nts	H/F Word	Pseudo No.	Pseudo Points	Reading Level		Alphabet	Check to see where the student made three consecutive errors. Check to see which letters the student could supply the sound and/ or the word for. Compare this with the student's spelling responses. Start the student in the level that reflects his/her attainment level.
						Spelling	Check to see which words the student can spell correctly. Check to see which phonemes the student could record correctly— use the points score. Compare this resulf with the student's alphabet responses. Start the student in the level that reflects his/her attainment level.
						High-Frequency Words	Check to see which words the student can read correctly. Check to see which words the student could almost read. Compare their results with the results on the pseudo-word test and the oral reading passages. If there is a mismatch in levels, start the student at the lowest level achieved across the tests.
						Pseudo Words	Check too see where the student made three consecutive errors. Check to see which words the student could aimst read—use the points score.  Compare these results with the results on the high-frequency word test and the rod reading passages. If there is a mainrach in levels, start the student of the lowest level achieved across the tests.
						Oral Reading	Review the Data Point Sheet. Compare the student's color-coded errors with the pseudoword and high-frequency word test results. Take into account the student's fluency and comprehension levels. Start the student at the lowest level of attainment.

Once you have transferred the raw scores to the Test Result Sheet, use the following table to assist you with placing the students into groups.

#### T.A.P.S. Is Easy to Use

Test the students who have been identified as needing a literacy intervention using the following tests.

#### Alphabet Test

The alphabet test is included because knowing alphabet letter names is a strong predictor of future reading and writing success although not causally related.

#### • Spelling Test

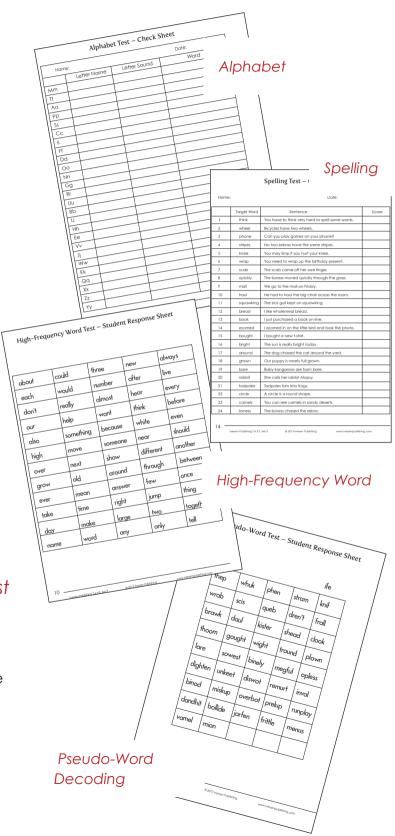

The spelling test is included to assess how well students can translate sounds into letters. Students unable to do this task will have trouble writing unknown words.

#### • High-Frequency Word Test

The high-frequency word test is included as all students need a bank of high-frequency words in their known reading and writing vocabularies to read and write fluently.

#### Pseudo-Word Decoding Test

The pseudo-word decoding test is included to assess how well students can translate letters into sounds.
Students unable to do this task will have trouble reading unknown words.

Check the high-frequency words and pseudo-word test results. These are benchmarked against the skills taught at each Quick60 level.

Blue = Levels 10 - 11 Green = Levels 12 - 14 Orange = Levels 15 - 16 Turquoise = Levels 17 - 18 Purple = Levels 19 - 20 Gold = Levels 21 - 22 Silver = Levels 23 - 24

#### The Alphabet Test - Instructions

## Checking on the Student's Ability to Name Alphabet Letters and Sounds

#### Instructions for Administering the Task

You need to administer this task to students individually. Invite a student to sit beside you and put him or her at ease.

#### Introduce and Explain the Task to the Student

Say: I'm going to show you some alphabet letters and I want you to tell me the name of the letter, the sound it makes, and a word beginning with that letter. I'm not going to help you because I want to see what you can do all by yourself.

#### **Administer the Task**

Put the student response sheet in front of the student. Cover all the letters with a sheet of paper except the top row.

Ask the student to read the letters, say the sound, and then say a word starting with that letter. Move the paper down as the student completes each row. Give general praise as appropriate, for example, nice try, good job, well done, but do not give the student any help or specific corrective feedback.

If a student fails to name a letter -

Say: Do you know the sound that letter makes or a word starting with that letter?

If the student does not respond -

Say: Okay let's try the next one.

Point to the next letter.

If the student is unable to give the letter name, sound, and a word starting with that letter for four consecutive letters, uncover the entire page.

Say: Look at the rest of the letters and see if there are any you know the name of, the sound they make, or a word that starts with that letter.

#### Score the Student's Responses

Use the check sheet to note the student's responses.

Write down the student's response to incorrect letters.

Note if the student spontaneously corrects an error.

## The High-Frequency Word Test – Instructions

## Checking on the Student's Ability to Read High-Frequency Words

#### Instructions for Administering the Task

You need to administer this task to the students individually. Invite the student to sit beside you and put him or her at ease.

#### Introduce the Task

Explain the task to the student.

Say: I'm going to show you some words and I want you to read them to me. I'm not going to help you because I want to see what you can do all by yourself.

#### **Administer the Task**

Put the student response sheet in front of the student. Cover all the words with a sheet of paper except the top row.

Ask the student to read the words.

Move the paper down as the student completes each row. Give general praise as appropriate, for example, *nice try*, *good job*, *well done*, but do not give the student any help or specific corrective feedback.

Move the task along at a reasonably brisk pace. You want the student to be able to instantly recognise the word. A rule of thumb is to count to five under your breath and if the student has not responded, move on.

If a student fails to read a word in that time -

Say: You try it.

If the student fails to respond –

Say: Okay let's try the next one.

Point to the next word.

If the student fails to respond to four consecutive words, uncover the entire page.

Say: Look at the rest of the words and see if there are any you know.

#### Score the Student's Responses

Use the check sheet to note which words the student reads correctly. Write down the student's response to incorrect words.

Purple = Levels 19-20 Gold = Levels 21-22 Silver = Levels 23-24

#### The Spelling Test - Instructions

## Checking on the Student's Ability to Spell Words Using Appropriate Letter Clusters

#### Instructions for Administering the Task

You do not necessarily need to administer this task to the students individually. You do need to make sure that if you are administering the task to a group, the students are not in a position to copy another student's work. Invite the student(s) to sit beside you and put them at ease.

#### Introduce the Task

Give each student a copy of the response sheet.

Say: I'm going to say a word and then say it again in a sentence. Then I'm going to say the word again. I want you to listen to the word and then write it on the line. Even if you think you can't spell the word, I want you to try it. Write down as much of the word as you can. Let's practise with this one.

#### **Practice the Task**

Say: The word is spring. Deciduous trees get new leaves in spring. Spring. Write spring.

#### **Administer the Task**

Read the sentences to the student(s).

Go slowly giving the student(s) time to think and write.

Give general praise as appropriate, for example, nice try, good job, well done, but do not give the student(s) any help or specific corrective feedback.

If a student fails to write anything, draw a line through that space so the student will have to write the next word on the line below.

If a student fails to respond –

Say: Okay let's try another one.

Proceed with the next sentence.

If a student fails to write anything for four consecutive words, terminate the task for that student.

	Target Word	Sentence	Score
I	think	You have to think very hard to spell some words.	
2	wheel	Bicycles have two wheels.	
3	phone	Can you play games on your phone?	
4	stripes	No two zebras have the same stripes.	
5	knee	You may limp if you hurt your knee.	
6	wrap	You need to wrap up the birthday present.	
7	scab	The scab came off her sore finger.	
8	quickly	The lioness moved quickly through the grass.	
9	mall	We go to the mall on Friday.	
10	haul	He had to haul the big chair across the room.	
11	squawking	The sick gull kept on squawking.	
12	bread	I like wholemeal bread.	
13	book	I just purchased a book on-line.	
14	zoomed	I zoomed in on the little bird and took the photo.	
15	bought	I bought a new t-shirt.	
16	bright	The sun is really bright today.	
17	around	The dog chased the cat around the yard.	
18	grown	Our puppy is nearly full grown.	
19	bare	Baby kangaroos are born bare.	
20	rabbit	She calls her rabbit Mopsy.	
21	tadpoles	Tadpoles turn into frogs.	
22	circle	A circle is a round shape.	
23	camels	You can see camels in sandy deserts.	
24	lioness	The lioness chased the zebra.	

#### Spelling Test – Scoring Options

#### Score the Student's Responses

If you wish to keep a numerical score to show progress pre and post the Quick60 programme you may do this in two ways.

The first procedure is simply to total the number of correct spellings.

You may also wish to check the students spelling against the skills trace to see if their spelling is keeping pace with their reading.

In the second procedure, each item is scored according to the following scale.

Response Score	
Correct conventional spelling.	4
Unconventional spelling – that is, two or more letters capturing all of the phonemes, e.g. bred for bread, horl for haul	3
More than one phoneme, but not all phonemes are represented.  The phonemes must be represented with phonetically related or conventional letters, e.g. stps for stripesl.	2
The initial phoneme is represented by the correct letter or with a phonetically related letter and followed by a random string of letters or nothing at all, e.g. red for rabbit	1
A single letter response that is appropriate but not the initial phoneme e.g. k for book.	1
No response or a random string of letters.	0

Using points to score gives a truer picture of the student's ability particularly in relation to silent letters and variant vowel combinations. Sometimes, students can segment some but not all phonemes, students may also know some spelling patterns but not others. Scoring points lets you see which separate sounds or letter clusters the student can or cannot record.

#### The Pseudo-Word Test - Instructions

## Checking on the Student's Ability to Decode Unknown Words

#### Instructions for Administering the Task

You have to administer this task to the students individually. Invite a student to sit beside you and put him or her at ease.

#### Set the Scene

Say: I want you to pretend that you're heading out in a spaceship to visit another planet. You've been chosen for this mission and you've decided to learn the language of the people who live there so you can speak to them. I have a list of the words that they use often, but you don't know them. You can only read them if you sound them out. Remember, don't try to make them into the words that we speak. Here's the list of words. Let's try this one together.

#### **Read the Practice Words**

Put the student response sheet in front of the student. Cover all the words with a sheet of paper except the two practice words.

Point to the first practice word, ept, and encourage the student to read the word by sounding it out. If the student says the word correctly, praise him or her.

Say: That was really good. You know how to look at the letters, work out what sounds they make, and then blend them all together to say the word. You'll be ready to talk to the far-away-planet people in no time at all. See it was really easy wasn't it?

If the student responds incorrectly or fails to respond after five seconds, demonstrate how to read the word.

Say: This letter makes an e sound like the beginning of egg,

and this letter is a p and the last letter is a t. If I blend the sounds

together I get ept. Now I want you to try another one.

Remember, you have to use what you know about the sounds of the letters in the word, and blend them together to say the word.

Point to the second practice word, ife.

Say: Now try this word and then we'll be ready to practise lots of words so that you'll be able to talk to the far-away-planet people. Remember, this is not one of our words. Look at it, and then blend the sounds together to say it.

Praise the student for a correct response.

If the student responds incorrectly or fails to respond after five seconds, demonstrate how to read the word.

Say: This letter makes an i sound like the beginning of ice. This letter is an f and it has the same sound as the f in fish. The e makes the i have the long sound.

#### Administer the Task

Slide the sheet of paper down to uncover the first line of words. Invite the student to read the words.

Say: I want you to read these words. Don't worry if you think you're wrong because, as I told you, they are not real words like the ones we speak so the way you're saying them could be right. When you've read one line, I'll uncover the next line for you to read.

Give general praise as appropriate, for example, *nice try, good job, well done*, but do not give specific corrective feedback unless the student reads the words in syllables, for example *th-e-p* for *the p*.

Say: That's right you got the sounds right, but you need to blend them together to read the word. See if you can say the word with the sounds blended together.

Proceed through the list of words moving the paper down as the student completes a line. If the student responds correctly, mark the response column of the score sheet. If the student responds incorrectly, write what the student says in the response column. Mark correct those words that have optional pronunciations, e.g. – plown, gought, clook, shead.

Continue until the student fails to respond correctly to three consecutive words in a word group. Finish the word group recording the student's actual response.

Remove the sheet of paper and ask the student to scan the page for any other words they can read. Mark any words correctly read in the response column of the score sheet.

#### Score the Student's Responses

If you wish to keep a numerical score to show progress pre and post the Quick60 Reading Programme you may do this in two ways.

The first procedure is simply to total the number of correct pronunciations.

In the second procedure, each phoneme in a word, correctly pronounced is scored. The number of phonemes in each word is shown next to the word on the score sheet. Score one point for each phoneme in the word correctly pronounced. For example, if a student reads *daul* correctly they receive 3 points. If the student says *dal*, they are awarded 2 points, one for *d* and one for *l*. If the student says *dab*, *baut* or *bell* they are awarded 1 point for the one phoneme correctly identified.

The points method of scoring gives a truer picture of the student's ability to segment and blend phonemes. Sometimes, students can segment phonemes but do not blend them together entirely correctly. Scoring points may give you a differentiation between a student's ability to segment and to blend phonemes.

There are no pseudowords that relate directly to levels 20 - 24. These levels teach vocabulary not decoding skills.

Blue = Levels 10-11 Green = Levels 12-14 Orange = Levels 15-16 Turquoise = Levels 17-18

Purple = Level 19

#### Placement Passages – Instructions

#### Checking on the Student's Oral Reading

#### **Instructions for Administering the Task**

You have to administer this task to the students individually. Invite a student to sit beside you and put him or her at ease.

#### Introduce the Task

Explain the task to the student.

Say: I'm going to give you a passage to read. I want you to read this all by yourself without my help.

#### Administer the Task

Give the student the appropriate placement passage. Tell them the title.

Invite them to look at the photos to broaden the context.

Ask the student to read the passage aloud.

Circle any words the student reads incorrectly on the colour-coded check sheet.

Write SC above any word that the student spontaneously corrects.

If the student stops at any word, count silently to five and then say, You try it.

If the student makes no attempt, tell the student the word and ask them to keep reading. Resist the temptation to teach. You want to see what the student can do on an unseen passage of text without help.

When the student has finished reading the passage, check their understanding by asking the comprehension questions.

If the text is obviously too hard, abandon it. Praise the student for their attempt and tell them that it was too hard and you will give them an easier passage to read. If the student reads the text easily and answers all, or most of the comprehension questions, have them read the passage from the next higher level.

#### Score the Student's Oral Reading

Transfer the data from the Colour-Coded Check Sheet to the Data Point Sheet.

#### Placement Passage Level 10

#### My Bike Accident

Today was the day of the Spring Bike Race. The thing I like about this race is that it gives you a real thrill.

You ride up and down three hills.

You ride over trails.

The race ends up with a sprint to the line.

I knew I could win today.

I was in about third place when it happened.

My wheel hit something.

It threw me and my bike into the white tape,

and down the hill.

I lay sprawled out on the ground below.

I was hurt. I hit my head.

I sprained my thigh and my thumb.

Some people watching wanted to phone

for the ambulance.

They said I should go to the hospital and get checked out.

I said, "Thank you, but I think I'll be okay."

The bad thing was, I didn't win the Spring Bike Race this time.

The good thing was, I didn't need a new bike.

## Placement Passage Level 10 Check Sheet – My Bike Accident

Name: Date:

#### Mud Wrestling

There's always mud wrestling at the Mt Gay Park Fair.

They map out a mud pit.

The floor is the size of a wrestling ring.

They lay a sheet of plastic on the floor.

They build the walls of sandbags.

The walls are knee-high.

After the walls are built.

they cover them with plastic, too.

They put really wet mud into the pit.

Men and women can wrestle in mud wrestling.

A man can wrestle a man or a woman.

A woman can wrestle a woman or a man.

Each wrestler gets a number.

Each wrestler has to wear proper clothes.

No shoes!

A referee starts the mud-wrestling match.

Wrestlers have to know the rules.

You can lie on your opponent, but don't knee them.

You can wrap your arms around your opponent,

but it's wrong to choke them.

If a wrestler wants to quit, the match is over.

Would you like to try mud wrestling?

#### Placement Passage Levels II-I2 Check Sheet – Mud Wrestling

#### Squall!

Saul Cook and his sons Peter and Paul were out on their small boat.

As they headed home, the weather changed,

from fine to a squall.

The squall brought wind and rain.

They could hear the wind

whipping up the waves.

Soon, the waves were as high as a wall.

Saul fought to keep the boat steady.

But every time a wave broke, the boat shook.

It almost capsized.

Saul called for help just as a very big wave

hit the boat.

Peter fell and hit his head.

Before Paul could grab him, he rolled outside.

Paul had to crawl over the deck

to haul him back inside.

Saul didn't want to think

what could have happened

if another big wave had hit them, then.

As the moon came up,

the Coast Guard came to help them.

It brought them home.

They were safe.

## Placement Passage Levels 13-14 Check Sheet Squall!

#### The Horse-Jumping Competition

I am a horse rider.

I own a mare called Bright Lights.

Horse riding is something I really like to do.

But I also like to enter

horse-jumping competitions.

I've known for a long time that Bright Lights could be a good jumper because she's fearless.

Nothing frightens her.

She'll try to jump even the highest fences.

Today, Bright Lights and I are in a competition.

The horse and rider with the fastest time.

and the cleanest round will win.

Bright Lights and I have done well.

We've jumped the first fences.

The next two jumps are even higher.

The last jump with three white rails

is the highest jump of all.

We have to move fast because if we don't,

someone else will win.

It's very stressful.

We get to the last jump.

Bright Lights gets it right.

We're the fastest.

We have the cleanest round.

We win the competition!

#### Placement Passage Levels 15 - 16 Check Sheet The Horse-Jumping Competition

#### The Biggest Pumpkin

Our town has a pumpkin show each year.

The show is really a contest to see who can grow the biggest pumpkin.

My friends said I should enter.

Over summer, I planted some pumpkin seeds

in a corner of my garden.

Next, I planted some different pumpkin seeds inside my greenhouse.

My seeds sprouted. I was careful not to over-water them.

I didn't want to make a mistake.

I would be very unhappy if my pumpkin plants didn't survive.

Before I knew it, it was show day.

I had to choose which two pumpkins to take.

They were so big it was an effort

to get them into my truck. But I did.

I didn't have the biggest pumpkins

at the show. I was disappointed.

Maybe next year I'll try again.

Maybe next year I'll grow

the biggest pumpkin of all.

Maybe next year I'll win.

#### Placement Passage Levels 17 - 18 Check Sheet The Biggest Pumpkin

#### Watching Lions

Four of us had come here to meet with a vet in answer to her call for help. She and her team had been watching a pride of lions. She said some people on her team ate bad meat and became sick. We were to take over for them.

The vet had parked the truck between two trees. We could see the lions moving around through the leaves. We were close, but not close enough for them to hear us open and close the truck door.

The weather was ideal for lion watching. It was warm, but not too hot. The pride had one lion, a few lionesses and eight little cubs. The cubs were not timid. They often came close to our truck whether we were outside or not. It seemed like we'd been watching the lions forever before something new happened. One day, an old, mean-looking lion came out of the trees. We knew at once there was going to be trouble!

#### Placement Passage Levels 19 - 20 Check Sheet Watching Lions

Name: Date:

#### Bungee Jumping

Bungee jumping is an extreme sport. It is not for the faint-hearted or timid. You have to be brave even to think about doing a bungee jump. Bungee jumpers jump from high-up places while they are attached to a big elastic cord. The places bungee jumpers leap from can be tall buildings, high bridges, and giant cranes. When the bungee jumper jumps, the cord stretches. The jumper goes right down and then up again as the cord recoils. The jumper keeps going up and down until all the energy in the cord is used up.

Once you have made up your mind to do a bungee jump, the first thing to do is to make a day and a time with the people who run the bungee jumps.

They will bring you up to the jumping platform.

They will put a harness on you. They will take
you through the safety rules. This is the time to
stay confident and positive, not to be afraid or
frightened.

When you are told to jump, JUMP!

## Placement Passage Levels 21-22 Check Sheet – Bungee Jumping

## The Scary Fun-Time Theme Park

The name of the theme park we chose to visit was *The Scary Fun-Time Park*. The web site said was were a bunch of roller coasters we could ride. There was a ghost train ride where we'd be chased by hordes of bats and a jungle safari ride where herds of wild animals would charge at us. You could also canoe through a canyon full of sharks!

All we had to do now was to sign up on-line, choose a good word for a password, and buy the tickets. I can't wait!

#### Placement Passage Levels 23-24 Check Sheet The Scary Fun-Time Theme Park

Name: Date:

I belong to a large family. This year all my aunts, uncles and cousins got together to visit a theme park. The only two people who couldn't come were my grandparents. We e-mailed each other for weeks trying to work out how many days we could spend at the theme park. Then it was hours on the Internet looking for any sites that would tell us all the things we wanted to know.

The name of the theme park we chose to visit was *The Scary Fun-Time Park*. The web site said there was a bunch of roller coasters we could ride. There was a ghost train ride where we'd be chased by hordes of bats and a jungle safari ride where herds of wild animals would charge at us. You could also canoe through a canyon full of sharks!

All we had to do now was to sign up on-line, choose a good word for a password, and buy the tickets. I can't wait!

#### **Comprehension Questions**

Literal

park?

Who couldn't go on the trip?
Where did they find out the information about theme parks?
What was the name of the theme park they chose to visit?
What would chase them on the ghost-train ride?
Inferential
Which would be the scariest ride? Why?
Which wild animals would chase you on a jungle safari ride?
What other rides could you have in a Scary Fun-Time Theme Park?

How many days do you think you would

need to try all the rides at this theme

#### Applying the Results

It is often difficult to group together striving readers as their needs are often diverse. Students who have little alphabet knowledge will find it hard to complete the other tasks that rely on making associations between the letters and the sounds they represent. Transfer the raw scores to this test result sheet to assist you with collating the results.

#### Test Result Sheet

Student	Alpha Name	Alpha Sound	Alpha Word	Spelling No.	Spelling Points	H/F Word	Pseudo No.	Pseudo Points	Reading Level

Once you have transferred the raw scores to the Test Result Sheet, use the following table to assist you with placing the students into groups.

Test	Placement
Alphabet	Check to see where the student made three consecutive errors.  Check to see which letters the student could supply the sound and/ or the word for.  Compare this with the student's spelling responses.  Start the student in the level that reflects his/her attainment level.
Spelling	Check to see which words the student can spell correctly. Check to see which phonemes the student could record correctly – use the points score. Compare this result with the student's alphabet responses. Start the student in the level that reflects his/her attainment level.
High-Frequency Words	Check to see which words the student can read correctly. Check to see which words the student could almost read. Compare these results with the results on the pseudo-word test and the oral reading passages. If there is a mismatch in levels, start the student at the lowest level achieved across the tests.
Pseudo Words	Check too see where the student made three consecutive errors.  Check to see which words the student could almost read – use the points score.  Compare these results with the results on the high-frequency word test and the oral reading passages.  If there is a mismatch in levels, start the student at the lowest level achieved across the tests.
Oral Reading	Review the Data Point Sheet. Compare the student's colour-coded errors with the pseudoword and high-frequency word test results.  Take into account the student's fluency and comprehension levels.  Start the student at the lowest level of attainment.
